JIMOH ISRAEL OLUWADAMILARE

Full-Stack Developer

Lagos, Nigeria · Open to remote roles | +234 706 898 5608 | jimohisrael04@gmail.com
nextjs-portfolio-blue-iota.vercel.app | github.com/jimohisraelo

PROFESSIONAL SUMMARY

Full-stack developer (B.Sc. Computer Science, Second Class Upper) shipping production web apps with Next.js, NestJS, Node.js and PHP. Built an 80+ endpoint backend serving 120+ users, led web commits on the Ojarun marketplace, and has run zero-downtime server migrations.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3/SCSS
Backend	Node.js, Express.js, NestJS, Prisma, PHP (CodeIgniter 4, Laravel, Laminas), Python (Flask), REST APIs, WebSockets (Ratchet), JWT
Databases	MongoDB, MySQL, Firebase
Tools & DevOps	Git/GitHub, Vercel, Azure VM, Bluehost/cPanel, Linux, DNS & SSL, Cloudinary, WhatsApp Cloud API, Postman, Jira, Figma

KEY PROJECTS

Ojarun — Online Grocery & Food Marketplace · ojarun.com
Tech: Next.js 16, React 19, TypeScript, Tailwind CSS, NestJS, Prisma, WhatsApp Cloud API, Cloudinary, Vercel

- Top web-app contributor (**64 of ~85 commits** across 2 repos) in a 5-person team building a Nigerian grocery platform shopped on the web or over WhatsApp; shipped **8 product features** end to end.
- Built a rewards and referral system (loyalty points, **Bronze/Silver/Gold tiers**, refer-and-earn, promo codes) and an AI shopping assistant that turns a shopping list into cart items.
- Built customer accounts, a cross-device cart, reviews and notifications; closed **3 security gaps** (price tampering, a rewards-fraud loophole, chat API rate limiting).
- Loaded the catalogue (**118 of 119 products** with images across **10 categories**) and fixed mobile layouts on cart, checkout and marketplace.

Blazing Torrent — Stanford Seed (STP) Alumni Platform · blazingtorrent.org
Tech: PHP (CodeIgniter 4, HMVC), MySQL, Ratchet WebSocket, JWT, PHPMailer, Bluehost, Azure VM

- Backend developer, working with a frontend and a mobile developer, on a private networking and deal-room platform for Stanford Seed Transformation Program alumni in Africa, live with **120+ users**.
- Built the full REST API — **30+ modules, 80+ endpoints** on a **36-table** MySQL schema — covering auth, profiles, connections, events, groups, deal rooms, messaging, newsfeed and marketplace.
- Built a real-time WebSocket server for live chat and presence, in-app notifications, and an admin backoffice (analytics, moderation, email dispatch, support inbox).
- Migrated hosting from Azure to Bluehost with **zero downtime**, fixing CORS, path and PHP-limit issues and enabling **100MB** media uploads.

PROFESSIONAL EXPERIENCE

Junior Software Developer (Backend) — Unleashified · client: WIFT Africa (wiftafrica.org) Oct 2025 – Jun 2026
Tech: Node.js, Express.js, TypeScript, MongoDB, Zod, REST APIs

- Built backend services for **WIFT Africa**, a live professional network for women in film and TV across Africa, in a TypeScript, Node.js and MongoDB codebase.
- Designed the **multi-step, chapter-based onboarding flow** (role, specializations, chapter, terms, admin review) that takes members from sign-up to approved membership, with automated emails to chapter admins.
- Shipped the platform's **social layer** — messaging, posts, likes and professional connections — plus the authentication and profile REST APIs, validated with Zod schemas.

Software Development Intern — I-Manager Solutions Jul 2024 – Sep 2024

- Migrated the company's servers to a new hosting environment with **zero downtime**, including a full database migration, DNS and SSL configuration, and post-move testing of every application.
- Developed backend features in PHP (Laminas, MVC) with MySQL and took part in code reviews with senior developers.

OTHER PROJECTS

Career Recommendation System github.com/jimohisraelo/career-recommendation-system

Recommends careers from OCEAN personality and aptitude results using a Random Forest model and cosine similarity; PHP (Laminas) app with a Python Flask ML API.

AI Career Chatbot huggingface.co/spaces/jimohisrael04/career_conversation

Conversational AI agent in Python that answers recruiters' questions about my experience and skills; deployed on Hugging Face Spaces.

The Sage — Clothing Brand Website sage-next.vercel.app

Co-built a Next.js e-commerce site with server-side rendering for SEO, responsive product pages and mobile-first navigation.

Personal Portfolio Website nextjs-portfolio-blue-iota.vercel.app

Next.js 15 + TypeScript + Tailwind portfolio with dark mode, accessible navigation, a live contact form and SEO/social preview metadata.

Weather Forecast App jimohisraelo.github.io/react-weather-app

React app with real-time OpenWeatherMap data, location search, geolocation, error handling and API response caching.

EDUCATION

B.Sc. Computer Science (Second Class Upper) — Federal University Oye-Ekiti, Ekiti State 2020 – 2025

SOFT SKILLS

Problem-solving · Critical thinking · Team collaboration · Effective communication · Adaptability · Time management · Attention to detail

LANGUAGES

English (Fluent) · Yoruba (Native)

INTERESTS

Open-source contribution, UI/UX design, cloud computing, machine learning and AI engineering
