JIMOH ISRAEL OLUWADAMILARE

Full-Stack Developer

Lagos, Nigeria | +234 706 898 5608 | jimohisrael04@gmail.com
nextjs-portfolio-blue-iota.vercel.app | github.com/jimohisraelo

PROFESSIONAL SUMMARY

Full-stack developer and Computer Science graduate with hands-on experience building responsive web applications and REST APIs in PHP, Node.js and React/Next.js. As a Junior Software Developer at Unleashified, built the backend for WIFT Africa's pan-African membership platform; as an intern, delivered a zero-downtime server migration. Known for clean, maintainable code, strong problem-solving and quickly picking up new technologies, with a growing focus on AI-powered applications.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap
Backend	PHP (Laravel, Laminas, CodeIgniter), Node.js (Express.js), Python (Flask), RESTful APIs, JWT authentication
Databases	MySQL, MongoDB, Firebase, phpMyAdmin
DevOps & Tools	Git, GitHub, Linux, cPanel, DNS & SSL, Vercel, Postman, Jira
Core Competencies	Responsive design, API integration, MVC architecture, AJAX/JSON, debugging, server migration

KEY PROJECTS

Career Recommendation System github.com/jimohisraelo/career-recommendation-system

Tech: PHP (Laminas), Python (Flask), MySQL, JavaScript, HTML/CSS

- Built a platform that recommends careers from OCEAN personality and aptitude test results, using a Random Forest model and cosine similarity.
- Wrote the backend data processing in PHP (Laminas) and integrated a Python Flask API that serves the machine-learning predictions.
- Designed the interface for taking the personality test and viewing results.

AI Career Chatbot huggingface.co/spaces/jimohisrael04/career_conversation

Tech: Python, LLMs, Hugging Face Spaces

- Built a conversational AI agent that answers recruiters' questions about my experience, skills and career in my own voice.
- Deployed publicly on Hugging Face Spaces.

The Sage — Clothing Brand Website sage-next.vercel.app

Tech: Next.js, React.js, JavaScript, HTML/CSS

- Co-built a modern e-commerce website for a clothing brand, using server-side rendering for better SEO and faster page loads.
- Developed responsive product pages with smooth animations, intuitive navigation and a mobile-first design that works across browsers.

Personal Portfolio Website nextjs-portfolio-blue-iota.vercel.app

Tech: Next.js 15, React 19, TypeScript, Tailwind CSS, Framer Motion

- Built a fast, responsive portfolio with light/dark mode, a mobile navigation menu and scroll animations that respect the user's reduced-motion setting.
- Added a contact form with live sending/success/error states, SEO metadata and auto-generated social preview images; all content is driven from a single typed data file.

Weather Forecast App jimohisraelo.github.io/react-weather-app

Tech: React.js, JavaScript, OpenWeatherMap API

- Built a real-time weather app with location search and geolocation, with error handling for invalid locations and network failures, and caching to reduce API calls.

PROFESSIONAL EXPERIENCE

Junior Software Developer — Unleashified Oct 2025 – Jun 2026

Tech: MERN stack — MongoDB, Express.js, React, Node.js

- Built and maintained the backend for the client platform WIFT Africa, a pan-African network supporting women in film and television.
- Designed RESTful APIs powering membership registration, professional profiles, networking, events and mentorship programmes.
- Implemented secure JWT authentication with role-based access control for members and administrators.
- Structured the MongoDB data model for dynamic member directories, and integrated email and notification services.

Software Development Intern — I-Manager Solutions Jul 2024 – Sep 2024

- Migrated the company's server infrastructure to a new hosting environment with **zero downtime**, including a full database migration with data-integrity checks.
- Configured server settings, DNS records and SSL certificates; tested every application after the move and documented the process for future migrations.
- Developed backend features in PHP (Laminas Framework, MVC) with MySQL, working alongside senior developers.
- Took part in code reviews and applied best practices for writing maintainable code.

EDUCATION

B.Sc. Computer Science (Second Class Upper) — Federal University Oye-Ekiti, Ekiti State 2020 – 2025

SOFT SKILLS

Problem-solving · Critical thinking · Team collaboration · Effective communication · Adaptability · Time management · Attention to detail

LANGUAGES

English (Fluent) · Yoruba (Native)

INTERESTS

Open-source contribution, UI/UX design, cloud computing, machine learning and AI engineering
